Subject: Reference - NATTRAN/SE/S247/3254 Stopping Up Order - Prince's Parade

Dear Caroline Williams,

I would refer to the above proposal and would like to raise my concern and objections.

Prince's Parade provides an important alternative route to and from Folkestone and beyond, for emergency traffic. The standard route being the very narrow and often congested A259 through Seabrook. This main route is used by buses, dustcarts, and delivery lorries all who slow and block the road.

Prince's Parade provides an important uncongested route through to Sandgate for emergency traffic and its closure will endanger lives.

Yours Sincerely

Edward Fancourt -
