Subject: Princes Parade Road Closure

Ref. NATTRAN/SE/S247/3254

Dear Ms Williams

I object to the closure of Princes Parade. My objection is predicated on the fact that currently thousands of people benefit from the public good that is Princes Parade. The closure is being proposed to benefit a much, much smaller cohort. That is surely contrary to all principles of common sense and natural justice.

One of the key lessons of the Covid-19 epidemic is the importance to physical and mental well-being of improving public access to public amenities and spaces. As a community we shouldn't be doing anything that diminishes that access.

Kind regards

Kevin Peters
