Subject: Princes Parade

I would like to add my objection to the proposal to move the road from its current location along Princes Parade.

I feel that it will disadvantage the local residents, cause congestion and prevent those of us who drive that way regularly from being able to stop for a few minutes to admire God's creation, absorb the scenery and marvel at the changes in mood of the sea on the way to and from our business having set off a few minutes earlier to enable us to make the most of this most marvellous of scenes.

Please note my objection as I do not feel this is of benefit to the area, the residents or the visitors.

With thanks

Susan Bucknell
