Subject: Proposed stopping up and diversion of Princes Parade. NATTRAN/SE/S247/3254
Importance: High

I am emailing to lodge my objection to the diversion of Princes Parade away from the sea line. Most importantly this proposal is completely unnecessary and pays no regard to the environmental destruction that will be caused to the diverse habitat and wildlife residing along the Royal Military Canal.

Not only that, the loss of access and parking along the seafront is likely to create increased traffic flow problems along the already busy Seabrook Road. I am extremely shocked that this proposal is being given any serious consideration.
