I object to the "Stopping up" of Prince's parade.

This is a perfectly usable road and a fantastic existing resource for locals and visitors in regard access to the seafront and as an alternate route between Sandgate and Hythe, connecting both is population and businesses.

Stopping up of this road would have a negative effect on both the local economy, access for locals and visitors and alternatives will cause further damage to the environment, unnecessary carbon emissions and ultimately costs to the tax payer.
