**Subject:** NATTRAN/SE/S247/3254

I am writing to raise my objections to the stopping up of Princes parade road for the following reasons. NATTRAN/SE/S247/3254

Access to the new development is well served by this road without it being moved.

The current road gives the less mobile an opportunity to enjoy coastal views.

The loss of parking along the seafront will make it harder for families to enjoy the beach.

The loss of parking will force more people to park in the town, causing further congestion.

Stopping up and creating a new road will damage the environment.

Stopping up the road and creating a new one is completely unnecessary.

**Kind regards**

**Rob Purvis**
