Subject: Matt ran/se/5247/3254/Prince parade

Dear Caroline

Could you pass my comments on to the Inspector 1. My family have lived in seabrook for over 40 years. The road that is subject to this issue has a history of being a race track upon which there have been many accidents with occasional fatalities.

2. The existing road is not wide enough to carry bidirectional traffic with the current parking zones that are currently allocated.

3. Pedestrians crossing the road to Hythe Beach take their lives in their hands.

4. Once Prince's Parade has been developed, this area will prevent the use of the existing road as a race for the local speed enthusiasts and allow pedestrians easy access to the beach front from a new and exciting public area.

I believe that supporting the stopping up of the existing road, will be to Hythe's and the general public's advantage.

Best regards, Paul O'Connor.
