**Subject:** Princes Parade Closure Objection

Dear Caroline,

I object to Stopping Up of Princes Parade and the closure of the coastal road along Princes Parade in Hythe.

This road is an important connection in the area, providing people with access to the seafront without creating congestion or noise pollution in the residential streets nearby.

The traffic surveys show there is no significant problem with accidents on Princes Parade and none that could be attributed to speed. In fact most people slow down to enjoy the sea views.

Please consider my objection and help prevent the closure of this important local connection.

Kind regards,  
Mihaela
