Subject: NATTRAN/SE/S247/3254 Objection to Stopping up of Princes Parade

Dear Caroline

I am writing to object to the stopping up of Princes Parade and the closure of the coastal road along Princes Parade in Hythe. I live at Marine Parade in Hythe and therefore regularly use Princes Parade and/or walk along the promenade.

In 30 years I have not seen any significant problems with accidents on the Parade that could be regularly attributed to speed. I always observe the speed limit as do my other member of family. My observations are that most cars I see along this road obey the law so I object to any discussions made to close this coastal road on grounds that people speed.

If anything, people drive slowly to enjoy the beautiful sweep of the bay that you can see along this road. Speeding is not a reason to close this road. Please do not allow this to go ahead.

Yours sincerely
Frances Sharp
