Subject: Princess Parade road closure Hythe, Kent

We have lived (40yrs with my family) parallel to the proposed building site of Princess Parade, walking daily several miles, I am horrified at the thought of this area being destroyed by Yet another massive construction site, taking away a communal Green area Coast meets land enjoyed by hundreds of walkers.

Please, please do not allow this to take place in this beautiful area enjoyed by so many, it's my/our primary reason for living here, being one of the few unspoiled Green coastal areas.

Thank you for listening to many pleas for preservation of Princess Parade.
With respect
