Subject: NATTRAN/SE/S247/3254

The proposed redirection of the promenade road between Hythe Imperial and Seabrook Battery Point

- has not been fully debated in Council and is against the wishes of many residents of Hythe.
- preparatory work has already been implemented by the Council in preparation for the proposed development.
- The road redirection will mean less access for disabled and elderly people who will not be able to access the sea front easily.
- There will be considerable disruption to wildlife and a resulting loss of wildlife.
- To cap the contaminated land on this site all vegetation will have to be removed and subsequent replanting will take many years to get established.

Please give this subject much thought and support the local campaign for the road not to be redirected.

Yours faithfully
