Subject: Support stopping up of Princes Parade

Hello,

My family support the stopping up of Princes parade road. As a family with young children who enjoy scooting, bike riding and walking along the promenade at Princes Parade I have often been shocked at how fast the cars travel and often are speeding.

It is very disconcerting and only a matter of time before there is a serious incident along there. As far as we are concerned the stopping up of the road will only bring benefits to families and make this beautiful space much more enjoyable and safer for everyone.

Kind regards
Mel Scott
