RE: NATTRAN/SE/S247/3254 - Public Inquiry re Proposed Stopping Up of Highway at Princes Parade, Folkestone, CT21 6AQ - Appointment of Planning Inspector - Mr O S Woodwards BA(Hons.) MA MRTPI

I would like to say that I believe that the stopping up of the highway at Princes Parade would be a major benefit to the users of the Promenade and the beach. The removal of traffic (often driving faster than the speed limit) and drivers using the road as a quick cut through, only to rejoin the A259 later on, would provide a pleasant and more enjoyable walking and cycling area for people using the promenade.

Therefore, the stopping up proposal is fully supported by me .
