I – Section 248 Orders

Please provide a description of the main highway to which the order relates for which planning permission has been granted.

J – Undertaking and declaration

In submitting this form (electronically or otherwise) I declare that:

- I understand that I have no authority to stop up or divert a highway until the notice announcing that the Secretary of State has made an order is published. Not only is it an offence to obstruct or interfere with a highway before this is done, but this may also make it impossible for the Secretary of State to make an order.
- Except to the extent authorised by or under some other statutory provision, the highway(s) to be stopped up or diverted is/are in no way obstructed and is/are fully available for use until the order comes into operation.
- All the information given in this form is, to the best of my knowledge and belief, true and accurate.
- I apply for an order to authorise the stopping up or diversion of the highway(s) described above and give permission to the Department for Transport to reproduce the stopping up plan submitted with this application for use with any Order that is issued.

Once your application is received, our written communication to you will be via e-mail; If you have a 'junk' filter on your e-mail account, it is recommended that you add nationalcasework@dft.gsi.gov.uk (or the domain @dft.gsi.gov.uk) to your contacts or 'safe senders' list.

If you have specific pre-application queries, we would be happy to answer these by e-mail or by telephone on 020 7944 4115 or 4262

Guidance Notes

To be read before completing the application form for stopping up or diversion orders. These do not need to be returned with the application form.

Section A:

Where requested, please provide full contact names and details. These greatly assist us in directing our queries and public documents to the appropriate person.

The applicant is the person with whom day-to-day contact should be made and who will respond to our queries and address any objections received. If an agent is appointed for this, their details should be provided on a covering letter.

Local Public Office – It is advantageous to have discussed the depositing of plans at the office prior to providing their details. This will reduce the potential of plans not being displayed appropriately. This is of particular importance if the local public office is a large organisation, such as a council,

Section B:

We do not require full statements of reasons/feasibility studies, just a brief outline on why the highway closure is needed.

Section C:

Please provide a copy of the planning decision notice and associated approved plans including the site layout.

Section D:

Please provide a copy of the planning application and associated plans showing the proposed site layout. Copies of any correspondence with the Highway Authority should also be included.

Section E:

Highway definitions:

'Highway' is defined in common law as a way over which all members of the public have the right to pass and repass. Their use of the way must be as of right and not on sufferance or by licence. Highways may be classified as follows:

'all-purpose highway' - may be used by all classes of traffic, including all motor vehicles, vehicles drawn by animals, pedal cycles and animals being ridden, led or driven:

'carriageway' - forming all, or part of, a highway (other than a cycle track) over which the public have a right of way for the passage of vehicles;

'footway' - a highway which also comprises a carriageway, being a way over which the public have a right of way on foot only (i.e. a pavement alongside a road)

'footpath' - a highway where the public have a right of way on foot only and where no carriageway is present;

'bridleway' - a highway over which the public have rights of way on foot, bicycle and on horseback, or when leading horses, with or without a right to drive any sort of animal along that highway. There is no other right of way on a bridleway.

'cycle track' - constituting or comprised in a highway, over which the public have a right of way on pedal cycles, with or without a right of way on foot. There is no other right of way on a cycle track.

We also do not just look at the adopted highways, but all highways which may have attracted highway rights. These areas should be considered in any stopping up Order. If they are not, then the application may attract objections.

It is essential that measurements are accurately described in the order schedule. The measurements described must be reflected in the plans submitted and must be measured in linear metres rather than m².

Section F:

When considering Land Ownership, any Lessee interests should be taken into account.

Sections G & H:

It should be noted that generally, 'new' highways are generally those which are new to the network and 'improvements' include widening or realignment of an existing highway.

Section I:

A description of the main highway to which the order relates for which planning permission has been granted/sought.

Plans required with ALL applications:

A copy of the approved (or proposed) site layout plan with the site boundary edged red and the existing highway boundary, within the site, edged blue;

An up to date plan(s) A3 or A4 size based on Ordnance Survey and *ideally* drawn to a scale of 1:1250 or 1:500 showing the area to be stopped up (see additional notes below).

Plans should also be dark enough to be photocopied.

All plans must clearly show a north point, preferably prepared so that North is shown parallel with the vertical side of the plan.

It should be possible to scale the measurements from the approved plan and the order plan and for both to agree.

Maps provided electronically must be in pdf format and state clearly what size they should be printed.

You will also be required to print documents for display.

Please do not send copies of the elevation plans.

Please contact the National Transport Casework Team if your plans are larger than A3.

There are no fees payable.

Guidance Notes

Stopping up plans:

Should show existing buildings and highway(s) clearly labelled. It is also important that sufficient of the surrounding area appears on the plan to enable the location to be easily identified.

The plans should be marked as follows:

Any highway (all-purpose highways, footpaths or bridleway) to be stopped up or diverted should be shown by zebra hatching or edged black;

Any new highway (all-purpose highways) pursuant to the order should be shown by stipple.

Any existing highway to be improved pursuant to the order should be shown by cross hatching over the affected length. Improvements include any widening or realignment.

New footpaths, bridleways or cycle tracks to be provided.

The terminal points of the lengths of highway proposed to be stopped up or diverted must be clear on the plans, if appropriate using labelled reference points.

Highways such as footpaths and bridleways must be identified in the order in words, such as 'the footpath / bridleway leading to North Street from West Road'. Sufficient information should be given on the plans to enable an adequate description to be prepared.

It is essential that measurements are accurately described in the order schedule; measurements must be to scale and shown in linear metres and not in square metres. The measurements shown on the application form should therefore match the area(s) being stopped up on the stopping up plan.

Check List

Items to be submitted with ALL applications.

- An existing highway layout plan showing the highway to be stopped up or diverted, including any new highways to be maintained at the public expense or any improvements.
- A copy of the approved (or proposed) site layout plan with the site boundary edged red and the existing highway boundary, within the site, edged blue
- A copy of any Compulsory Purchase Order (if applicable).

If you already have planning decision, you also need to provide:

- A copy of the planning permission decision notice.
- A copy of the site layout plan(s) as approved by the above planning permission.

If you have yet to receive your planning decision you also need to provide:

- A copy of the site layout plan(s) proposal as submitted with the planning application.
- A copy of the planning application and any highway authority correspondence.
