Subject: Prince's Parade

Good afternoon,

I wish to add my voice to those who are opposed to the stopping up of Prince's Parade.

The diversion of the road will, I think, be extremely detrimental to the canal (an ancient monument) and to the flora, fauna and general ambience of the area between the current position of the road and the canal. This is, pretty well, the last piece of open space beside the sea between the eastern part of Folkestone and the western end of Hythe and it needs to be preserved and not destroyed.

Yours faithfully
John Chapman
