Good morning Penny,

I hope this email finds you well.

Please find enclosed responses to the outstanding queries raised by the Inspector dated 3rd January 2023 – responses 3 to 9 (first PDF refers). The responses in question have prompted very minor edits to the CIL Charging Schedule that is proposed to be adopted by the Council, and yellow highlights within the document refer to the additional changes. The CIL rates presented within the Charging Schedule reflect the revisions that came into effect on 1st January 2023.

Gerald Eve will issue an updated viability report that contains the associated clarifications early next week. Once received I shall forward this on.

Kind regards,

James
