Good afternoon Penny,

I hope this email finds you well.

In reference to question 2 of the Examiner's questions (doc ref EQ1), please find enclosed a copy of the Charging Schedule that the Council intends to bring into effect on the assumption that the examination concludes that there is no need for any amendment.

Regarding question/query 10 raised by the Examiner (doc ref EQ1), I wholly concur with the opinion provided by the Examiner, who has advised that it would be more straightforward for Table 2 to include the heading 'Retail Development'. The appropriate amendment has been incorporated into the enclosed copy of the Charging Schedule.

Kind regards,

James
