## Bin requirements:

Each new house of up to 5 occupants, with off road storage, will require a launch pack consisting of:

- 180 litre waste bin (wheelie)
- 240 litre wheelie for dry recycling (other than paper and card)
- 55 litre box for paper and card recycling
- 23 litre external food caddy and a 5 litre internal kitchen caddy

For houses of 6 or more occupants you will need to discuss this further with the waste management team at Folkestone and Hythe District Council

For flats – each flat has the right to the same amount of storage as per the above list but this will need to be calculated together to the larger communal bin types (euro bins etc) to see how many are needed.
