Dear Sir

Ref: Closure of Princes Parade road

I have already submitted my detailed opposition to this development to FHDC as it is unacceptable and creates significant harm. However, it seems that FHDC is determined to undermine the wishes of the local people. I am dismayed at some of the tactics being used by FHDC in keeping information from the electorate as well as apparently overstating the costs of the sports centre development at Nicholls quarry. If the development were to be granted planning permission there is no overriding need to move the road as the proposed buildings could be served from the existing road. It is therefore not necessary for it to be stopped up and realigned for this development to take place. The whole development is to the detriment of locals with no account of their view being taken at all.

I include this submission in that statement.

I would like to request that this stopping up order to be considered by the Secretary of State at the same time as the planning application so that he may see the full picture.

The closure of the road will affect my way of life as I use it en route to Hythe frequently. I have already raised my concerns over the impact of this proposed road next to the canal would have. The loss of this route would add traffic to the main road into Hythe, which is already very busy. I have already been impacted by the installation of parking meters along PP which has now taken away my main reason for moving here, easy access to the seafront any day of the week to just read on the beach. This is something I have dreamt about all my life and now it has been taken away.

In addition, £10k has already been spent putting the meters on the wrong side of the road which you are now proposing to close. Sorry, but is someone a bit thick at FHDC? I am paying for all of this through my council tax and would expect some accountability.

You will be losing yet more votes come the 24th May.

Regards

Mike Temple
