Subject: Princess Parade Objection to Stopping Up Road Ref NATTRAN/SE/S247/3254

To whom it may concern.

Please note that I object to the stopping up of the road called Princess Parade referenced above. This is a coastal road and it is unnecessary to divert or move it from its current location. This type of road is a national asset and gives beautiful views of the Bay.

Further to this, it currently relieves the traffic from the other roads, namely the A259, Stade Street and Twiss Road amongst others. If realigned it would not be able to achieve this important role.

This is extremely important, especially when future development are realised which will add further vehicle stress to the already busy local road networks.

Yours,

Paul Wright
