Subject: PRINCES PARADE HYTHE

Dear Sirs,

I have read with interest on Folkestone online about the development on the seafront at princes parade Hythe. I am very much not in favour of your project, my husband and I are retired and attend the hythe swimming pool many times, we park on the seafront at prnces parade after to eat our lunch, either sitting on a bench or in our car if the weather is not so good. We will not be doing this if you close the road, we will not drive all through sandgate village and back round the sea front to eat our lunch.

We used to live on the seafront at Greatstone near Romney sands caravan park, in the summer it was murder trying to get our car in and out of our drive with all the cars parked on the seafront, with busses and cars driving up on the pavement to get by. We had enough after 10 years sold up. I would not buy one of the houses you intend building on princes parade if you paid us. Also if the road is closed where are people going to turn round to get out of the road in peoples front garden like we used to have.

Where are the children going to school, our granddaughter attends Folkestone grammar, she said there are 1,000 students that are in her school, are you building schools? are you building a doctors surgery. We attend Sandgate road surgery, 5 weeks for an appointment one could be dead before we see a GP.

What about the road surface on princes parade, it is disgusting, how you have the nerve to charge to park there I have no idea. I hope you have given more thought to these plans than the crazy one about the parking metres on the other side of the road then having to move them and cutting holes in the sea wall so people can get to the metres at a cost of £10,000 to us council tax payers.

Yours faithfully,

Mr and Mrs Thomas, [REDACTED]
