I object to the stopping up or re-aligning of the road adjacent to Princes Parade. This is one of the few areas that we can drive, park and access the beach area with ease. It's a wonderful bit of road, albeit short, where folk like me with arthritic knees can get out and in a few paces sit on the sea wall. It would be such a shame to lose it, I realise this is a selfish reason to object to this proposal, but I do.

Yours sincerely
Laurence Page
