Hello, I am writing this to tell you how upset my family and I. It's so sad to see our beautiful area built on for greed, power and money. This proposal serves to make the rich richer. We are sick of the councillors lying to us. This will not benefit the normal people of Hythe it will be for the rich people that don't live locally and will not contribute to the local economy. The swimming pool will never go ahead, it's just proposed to make us think you are doing this for local people. Lies lies lies! We already have a swimming pool. Why can't you make that bigger and better? I'll tell you why, because the rich won't get richer from that!

Leave Princes Parade alone!

Yours faithfully,

lynda Barlow.
