I totally object to the "Stopping Up" of the road at Princes Parade. The Council give no reason as to why this road needs to be diverted and does not demonstrate any reason to do so. To my mind there appears to be no logical reason as to why this road needs to be moved.

The creation of a new road will destroy the tranquillity of the canal and disrupt the wildlife whilst destroying "another green lung" in Hythe. The new road will also have a significant detrimental effect on our ancient historical monument ruining it forever.

It is currently used by young, old, disabled, visitors, anglers and kayakers alike who use this road to gain access to the sea and enjoy what is precious and unique to our beautiful seaside town.
